

PROGETTO DI FATTIBILITÀ TECNICO ECONOMICA

Riferimento rev 1	Elaborato A8	Data giugno 2025	Scala 1:100
PROGETTAZIONE		UFFICIO URBANISTICA E CENTRO STORICO	
Architetto ALESSANDRA ROCCHI COLLABORATORI: Arch. Federica Talamonti Arch. Michela Fione Arch. Alessia Fulvi Arch. Marco Musetti		Dirigente del Settore VII Architetto STEFANO PERUZZO Responsabile Unico del Procedimento Architetto STEFANO PERUZZO	

This architectural elevation drawing shows a building facade with a gabled roof. The central entrance features a double door with a pediment supported by two columns. To the left of the entrance is a single door with a pediment and a circular window above it. To the right is another single door with a pediment and a circular window above it. A small square window is centered in the gable above the entrance. A tall chimney is on the left side of the roof, and a smaller one is on the right. The drawing is a line art illustration with green outlines for the ground and foliage.

This architectural elevation drawing depicts a historic building facade, likely a church or institutional structure, characterized by its aged, textured masonry. The building features a prominent gabled roof and a series of windows, some of which are fitted with metal grilles. A large, arched opening is visible at the ground level, possibly serving as an entrance or a large window. The drawing includes horizontal dashed lines indicating elevation levels, with labels such as 'wp+3.85', 'wp+3.80', 'wp+3.75', 'wp+3.70', and 'wp+3.65' on the left side. The facade shows signs of wear and historical construction, with a mix of light and dark tones. The building is situated on a slightly elevated plot, with a low wall and some vegetation visible in the foreground.

This architectural drawing shows the elevation of a building facade. The structure features a steep gabled roof with a chimney on the left side. The main body of the building is composed of several vertical sections. On the left, there is a section with a small balcony or terrace area featuring a decorative urn. Below this, a window with a grid pattern is visible. The central part of the facade includes a large, arched doorway at the ground level, flanked by windows with grid patterns. Above the doorway, there is a small, square window. To the right of the central section, there is a taller, narrower section with a window and a small, square window above it. The roofline is marked with a series of small, rectangular elements, possibly representing roof tiles or a decorative cornice. The drawing is executed in a simple, line-art style with black outlines and some green hatching for shading.

This architectural drawing shows a building facade with a sloped roof. The roof is covered with a series of rectangular tiles. Below the roof, there are several windows and doors. On the left, there is a door with a small window above it. In the center, there are two windows with grilles. On the right, there is a larger window with a grille. The drawing is a black and white line drawing.

This architectural elevation drawing depicts a building facade with a complex roofline and a mix of architectural styles. The main structure features a traditional tiled roof with a central chimney. To the right, a section with a gabled roof contains two arched windows. A modern glass extension is visible on the far right. The ground level is uneven, with a sloping site indicated by a diagonal line. A small, modern glass structure is situated on the left side of the main building. The drawing uses black lines on a white background, with green lines indicating landscaping or ground features.
